1 Q2 and year-to-date 2023 and 2022 adjusted net earnings exclude after tax purchase accounting expenses and restructuring and other costs. Q2 and year-to-date 2022 also exclude a reduction to income taxes previously recorded related to the Tax Cuts and Jobs Act.

For the quarter ended June 30, 2023, Dover generated revenue of $2.1 billion, a decrease of 3% (-3% organic). GAAP net earnings of $242 million decreased 16%, and GAAP diluted EPS of $1.72 was down 14%. On an adjusted basis, net earnings of $288 million decreased 7% and adjusted diluted EPS of $2.05 was down 4%.

For the six months ended June 30, 2023, Dover generated revenue of $4.2 billion, a decrease of 1% (flat organic). GAAP net earnings of $471 million decreased 9%, and GAAP diluted EPS of $3.35 was down 6%. On an adjusted basis, net earnings of $561 million decreased 4%, and adjusted diluted EPS of $3.99 was down 1%.

A full reconciliation between GAAP and adjusted measures and definitions of non-GAAP and other performance measures are included as an exhibit herein.
MANAGEMENT COMMENTARY:

Dover’s President and Chief Executive Officer, Richard J. Tobin, said, “The second quarter results met our expectations. Since the start of the year, we expected 2023 performance to be weighted to the second half due to post-pandemic destocking across the industrial economy and the gradual recovery in several of our end markets.

“In the second quarter, outperformance in our high-growth businesses was offset by transient manufacturing and shipment disruptions in our vehicle services group caused by an ERP system upgrade. This reduced our top line and EPS by approximately $50 million and $0.10, respectively, and is now largely behind us, with output recovering meaningfully in June.

“Order activity in our shorter-cycle end markets remained solid amid normalizing lead times, and our long-cycle and secular-growth-exposed businesses maintained strong shipment levels. As a result, our order backlog continued to normalize but remains elevated.

“We had forecasted softer comparable margins in the first half of 2023 primarily due to business mix and lower volumes in biopharma and EMV payment systems. We prepared for this by proactively intervening on our cost structure starting in the latter half of 2022, and have continued these structural cost reductions in 2023. We expect the roll forward of these actions, demand seasonality and backlog shipment timing to drive sequential and comparable operating margin improvement in the second half.

“Our strong balance sheet position and robust cash flow through the end of the year provide flexibility in our capital allocation initiatives. We are well on track with our organic growth initiatives and capacity build outs in clean energy, CO₂ systems, and heat exchangers which are already driving growth in 2023. We remain active and disciplined in pursuing attractive bolt-on acquisitions while opportunistically evaluating capital return strategies.

“We have a constructive outlook for the remainder of the year and see a solid foundation building for 2024. Underlying demand remains good across the portfolio, and a significant volume of business is already in the backlog. Our flexible business model and execution playbook are proven to deliver results in various operating conditions.”

FULL YEAR 2023 GUIDANCE:

In 2023, Dover expects to generate GAAP EPS in the range of $7.68 to $7.83 (adjusted EPS of $8.85 to $9.00), based on full year revenue growth of 2% to 4% (all-in and organic).

CONFERENCE CALL INFORMATION:

Dover will host a webcast and conference call to discuss its second quarter and year-to-date results at 10:00 A.M. Eastern Time (9:00 A.M. Central Time) on Tuesday, July 25, 2023. The webcast can be accessed on the Dover website at dovercorporation.com. The conference call will also be made available for replay on the website. Additional information on Dover's results and its operating segments can be found on the Company's website.

ABOUT DOVER:

Dover is a diversified global manufacturer and solutions provider with annual revenue of over $8 billion. We deliver innovative equipment and components, consumable supplies, aftermarket parts, software and digital solutions, and support services through five operating segments: Engineered Products, Clean Energy & Fueling, Imaging & Identification, Pumps & Process Solutions and Climate & Sustainability Technologies. Dover combines global scale with operational agility to lead the markets we serve. Recognized for our entrepreneurial approach for over 65 years, our team of over 25,000 employees takes an ownership mindset, collaborating with customers to redefine what’s possible. Headquartered in Downers Grove, Illinois, Dover trades on the New York Stock Exchange under "DOV." Additional information is available at dovercorporation.com.
FORWARD-LOOKING STATEMENTS:

This press release contains "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. All statements in this document other than statements of historical fact are statements that are, or could be deemed, "forward-looking" statements. Forward-looking statements are subject to numerous important risks, uncertainties, assumptions and other factors, some of which are beyond the Company's control. Factors that could cause actual results to differ materially from current expectations include, among other things, general economic conditions and conditions in the particular markets in which we operate, supply chain constraints and labor shortages that could result in production stoppages, inflation in material input costs and freight logistics, the impact of interest rate and currency exchange rate fluctuations, the impacts of COVID-19, or other future pandemics, on the global economy and on our customers, suppliers, employees, business and cash flows, the impact on global or a regional economy due to the outbreak or escalation of hostilities or war, changes in customer demand and capital spending, competitive factors and pricing pressures, our ability to develop and launch new products in a cost-effective manner, our ability to realize synergies from newly acquired businesses, and our ability to derive expected benefits from restructuring, productivity initiatives and other cost reduction actions. For details on the risks and uncertainties that could cause our results to differ materially from the forward-looking statements contained herein, we refer you to the documents we file with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2022, and our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. These documents are available from the Securities and Exchange Commission, and on our website, dovercorporation.com. The Company undertakes no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

1 Purchase accounting expenses are primarily comprised of amortization of intangible assets and charges related to fair value step-ups for acquired inventory sold during the period.
2 Restructuring and other costs relate to actions taken for headcount reductions, facility consolidations and site closures, product line exits, and other asset charges.
3 Loss on dispositions includes working capital adjustments related to dispositions.
4 Certain expenses are maintained at the corporate level and not allocated to the segments. These expenses include executive and functional compensation costs, non-service pension costs, non-operating insurance expenses, shared business services and digital overhead costs, deal-related expenses and various administrative expenses relating to the corporate headquarters.
5 Q4 and FY 2022 include a $6.3 million settlement charge related to our U.S. qualified defined benefit plan.

</table>

1. Purchase accounting expenses are primarily comprised of amortization of intangible assets and charges related to fair value step-ups for acquired inventory sold during the period. Q1, Q2, and FY 2022 include $12,487, $7,158, and $19,869 of amortization of inventory step-up, respectively, primarily related to the Q4 2021 acquisitions within our Clean Energy & Fueling segment.
2. Adjustments were tax effected using the statutory tax rates in the applicable jurisdictions or the effective tax rate, where applicable, for each period.
3. Restructuring and other costs relate to actions taken for headcount reductions, facility consolidations and site closures, product line exits, and other asset charges. Q1 and FY 2022 include $5,457 of non-cash foreign currency translation losses reclassified to earnings included within restructuring and other costs and $2,117 related to write-off of assets due to an exit from certain Latin America countries for our Climate & Sustainability Technologies segment.
4. Q1 2022 and FY 2022 represents working capital adjustments related to the disposition of Unified Brands and the Race Winning Brands equity method investment in Q4 2021.
5. Q2 and FY 2022 represent a reduction to income taxes previously recorded related to the Tax Cuts and Jobs Act.

1. Certain expenses are maintained at the corporate level and not allocated to the segments. These expenses include executive and functional compensation costs, non-service pension costs, non-operating insurance expenses, shared business services and digital overhead costs, deal-related expenses and various administrative expenses relating to the corporate headquarters.
2. Loss on dispositions includes working capital adjustments related to dispositions.
3. Restructuring and other costs relate to actions taken for headcount reductions, facility consolidations and site closures, exit costs, and other asset charges.
4. Purchase accounting expenses are primarily comprised of amortization of intangible assets and charges related to fair value step-ups for acquired inventory sold during the period.
5. Other depreciation and amortization relates to property, plant, and equipment and intangibles, and excludes amounts related to purchase accounting expenses and restructuring and other costs.
6. Refer to Non-GAAP Disclosures section for definition.
7. Q4 and FY 2022 include a $6.3 million settlement charge related to our U.S. qualified defined benefit plan.

Non-GAAP Measures Definitions

In an effort to provide investors with additional information regarding our results as determined by GAAP, management also discloses non-GAAP information that management believes provides useful information to investors. Adjusted net earnings, adjusted diluted net earnings per share, total segment earnings, total segment earnings margin, adjusted segment EBITDA, adjusted segment EBITDA margin, free cash flow, free cash flow as a percentage of revenue, free cash flow as a percentage of adjusted net earnings, and organic revenue growth are not financial measures under GAAP and should not be considered as a substitute for net earnings, diluted net earnings per share, cash flows from operating activities, or revenue as determined in accordance with GAAP, and they may not be comparable to similarly titled measures reported by other companies.

Adjusted net earnings represents net earnings adjusted for the effect of purchase accounting expenses, restructuring and other costs/benefits, Tax Cuts and Jobs Act, and gain/loss on dispositions. Purchase accounting expenses are primarily comprised of amortization of intangible assets and charges related to fair value step-ups for acquired inventory sold during the period. We exclude after-tax purchase accounting expenses because the amount and timing of such charges are significantly impacted by the timing, size, number and nature of the acquisitions the Company consummates. While we have a history of acquisition activity, our acquisitions do not happen in a predictive cycle. Exclusion of purchase accounting expenses facilitates more consistent comparisons of operating results over time. We believe it is important to understand that such intangible assets were recorded as part of purchase accounting and contribute to revenue generation. We exclude the other items because they occur for reasons that may be unrelated to the Company's commercial performance during the period and/or management believes they are not indicative of the Company's ongoing operating costs or gains in a given period.

Adjusted diluted net earnings per share or adjusted earnings per share represent diluted EPS adjusted for the effect of purchase accounting expenses, restructuring and other costs/benefits, Tax Cuts and Jobs Act and gain/loss on dispositions.

Total segment earnings is defined as the sum of earnings before purchase accounting expenses, restructuring and other costs/benefits, gain/loss on dispositions, corporate expenses/other, interest expense, interest income and provision for income taxes for all segments. Total segment earnings margin is defined as total segment earnings divided by revenue.

Adjusted segment EBITDA is defined as segment earnings plus other depreciation and amortization expense, which relates to property, plant, and equipment and intangibles, and excludes amounts related to purchase accounting expenses and restructuring and other costs/benefits. Adjusted segment EBITDA margin is defined as adjusted segment EBITDA divided by revenue.

Management believes the non-GAAP measures above are useful to investors to better understand the Company's ongoing profitability as they will better reflect the Company's core operating results, offer more transparency and facilitate easier comparability to prior and future periods and to its peers.

Free cash flow represents net cash provided by operating activities minus capital expenditures. Free cash flow as a percentage of revenue equals free cash flow divided by revenue. Free cash flow as a percentage of adjusted net earnings equals free cash flow divided by adjusted net earnings. Management believes that free cash flow and free cash flow ratios are important measures of liquidity because they provide management and investors a measurement of cash generated from operations that is available for mandatory payment obligations and investment opportunities, such as funding acquisitions, paying dividends, repaying debt and repurchasing our common stock.

Management believes that reporting organic revenue growth, which excludes the impact of foreign currency exchange rates and the impact of acquisitions and dispositions, provides a useful comparison of our revenue and bookings performance and trends between periods. We do not provide a reconciliation of forward-looking organic revenue to the most directly comparable GAAP financial measure pursuant to the exception provided in Item 10(e)(1)(i)(B) of Regulation S-K because we are not able to provide a meaningful or accurate compilation of reconciling items. This is due to the inherent difficulty in accurately forecasting the timing and amounts of the items that would be excluded from the most directly comparable GAAP
financial measure or are out of our control. For the same reasons, we are unable to address the probable significance of unavailable information which may be material.

**Performance Measures Definitions**

Bookings represent total orders received from customers in the current reporting period. This metric is an important measure of performance and an indicator of revenue order trends.

Organic bookings represent total orders received from customers in the current reporting period excluding the impact of foreign currency exchange rates and the impact of acquisitions and dispositions. This metric is an important measure of performance and an indicator of revenue order trends.

Backlog represents an estimate of the total remaining bookings at a point in time for which performance obligations have not yet been satisfied. This metric is useful as it represents the aggregate amount we expect to recognize as revenue in the future.

We use the above operational metrics in monitoring the performance of the business. We believe the operational metrics are useful to investors and other users of our financial information in assessing the performance of our segments.
