Downers Grove, Illinois, October 17, 2013 — Dover (NYSE: DOV) announced today that for the third quarter ended September 30, 2013, revenue was \$2.3 billion, an increase of 7% over the prior year period. The revenue increase was driven by organic growth of 3% and an increase of 4% from acquisitions. Earnings from continuing operations were \$263.7 million, or \$1.53 diluted earnings per share ("EPS"), compared to \$233.3 million, or \$1.27 EPS, in the prior year period, representing increases of 13% and 20%, respectively. EPS from continuing operations includes Knowles spin-off costs of \$0.06 EPS, discrete tax benefits of \$0.03 EPS, and other one-time gains of \$0.02 recognized in the current quarter. Excluding these items, adjusted EPS from continuing operations for the third quarter of 2013 was \$1.54, reflecting an increase of 23% over an adjusted EPS of \$1.25 in the prior year period.

Revenue for the nine months ended September 30, 2013 was \$6.5 billion, an increase of 7% over the prior year, reflecting organic growth of 2% and a 5% increase from acquisitions. Earnings from continuing operations for the nine months ended September 30, 2013 were \$755.0 million, or \$4.34 EPS, compared to \$624.9 million, or \$3.37 EPS in the prior year period, representing increases of 21% and 29%, respectively. EPS from continuing operations during this period includes Knowles spin-off costs of \$0.08 EPS, discrete tax benefits of \$0.41 EPS, and other one-time gains of \$0.02 compared to \$0.01 EPS of discrete tax benefits in the prior year. Excluding these items, adjusted EPS from continuing operations for the nine months ended September 30, 2013 was \$4.00, an increase of 19% over an adjusted EPS of \$3.36 in the prior year.

Commenting on the third quarter results, Dover's President and Chief Executive Officer, Robert A. Livingston, said, "I am pleased with our strong third quarter results, which were driven by broad-based organic growth across all segments. These results reflect the impact of our global growth initiatives and our recent acquisitions. Particularly strong were our drilling and downstream markets within Energy, our refrigeration & food equipment markets, and Printing & Identification. Our revenue growth was leveraged by solid execution and cost reduction activities, resulting in a segment margin of 19.4%, representing a 100 basis point improvement over last year."

"Also encouraging, we continued to execute on our global growth strategies and productivity

initiatives during the quarter. We have announced several strategic acquisitions since our last quarterly report and expect more activity in the near-term. These deals are highly synergistic and help to broaden our product mix and geographic breadth within our growth spaces. In addition, we continued to execute on several projects which allow us to consolidate our manufacturing footprint and share infrastructure. These actions, taken together with the upcoming spin-off of Knowles, position Dover very well for sustained growth and outstanding performance."

"While our overall third quarter performance was strong, market conditions proved to be softer than anticipated. As a result, we are revising our organic growth expectations to the low-end of our prior range, and now expect full year growth of about 3%. Our acquisition growth remains unchanged at 4%, resulting in total full-year revenue growth of approximately 7%. Based on this revised revenue guidance, we are narrowing our full year EPS guidance to the range of \$5.57 to \$5.64. This range includes incurred spin-off costs, discrete tax benefits, and one-time gains. This range does not include any prospective Knowles spin-off costs in the fourth quarter."

Net earnings for the third quarter of 2013 were \$269.1 million or \$1.56 EPS, including earnings from discontinued operations of \$5.5 million, or \$0.03 EPS, compared to net earnings of \$241.0 million, or \$1.31 EPS, for the same period of 2012, which included earnings from discontinued operations of \$7.7 million, or \$0.04 EPS.

Net earnings for the nine months ended September 30, 2013 were \$809.2 million, or \$4.65 EPS, including net earnings from discontinued operations of \$54.2 million, or \$0.31 EPS, compared to net earnings of \$651.2 million, or \$3.51 EPS, for the same period of 2012, which included net earnings from discontinued operations of \$26.3 million or \$0.14 EPS. Reflected within discontinued operations was a goodwill impairment charge of \$18.7 million, net of tax, or \$0.11 EPS, in connection with the anticipated sale of our electronic test and assembly businesses, and discrete tax benefits of \$54.4 million, or \$0.31 EPS.
